DETECTIVES HUNT FOR BOMB SUSPECTS

Anarchists Held to Blame for Destructive Wall Street Explosion.

New York.—The investigation of the explosion in Wall street, which cost 35 lives and did property damage exceeding \$1,000,000, broadly divided itself into two separate channels.

Firm in their belief that the disaster was caused by a time bomb planted by a band of anarchists, who were also implicated in the mail-bomb plots in June, 1919, department of justice investigators, headed by William J. Flynn, chief of the department's bureau of investigation, have centered their efforts in seeking the identity of the person or persons who deposited five radical circulars in a mail box near the scene just a few minutes before the explosion.

While federal agents interrogated known anarchists and hunted for Carlo Tresca, an alleged communist, city police were reported to have sent a detective to Hamilton, Ont., to bring back Edwin P. Fischer, held there on a charge of insanity. Fischer warned friends "to keep out of Wall street on the fifteenth."

Fischer claims to have received notice of the impending disaster by "mental telepathy." Chief Flynn expressed the opinion that Fischer is in no way connected with the explosion itself.

Experts in the police bomb squad who have examined and pieced together metal fragments believed to have been part of the bomb declared the deadly missile apparently weighed about 500 pounds, 200 of which were the explosive itself.

The most tangible clue discovered is the steel shoes from the hind hoofs of the horse which hauled the "bomb wagon" to the corner of Broad and Wall streets. The police were reported to have found the blacksmith who shod the horse.

SEATTLE REDS BEING WATCHED

Seattle, Wash.—Surveillance over Seattle "red" suspects, as a result of the Wall Street bomb explosion last week, was tightened by the department of justice bureau of investigation here while the United States secret service is continuing the guard placed on the United States assay office and the Seattle Branch Federal Reserve bank.

Increased activity of the bureau of investigation was caused by receipt of a copy of an anonymous letter written in Milwaukee, threatening assassination of persons prominent in prosecution of those responsible for the Armistice day murders in Centralia. An invasion of Centralia by 24 armed radicals about October 15 is threatened in the letter, apparently written by a woman, according to J. F. McAuley, head of the northwest bureau of investigation.

This letter is not regarded by government agents as serious in itself, but is a confirmation, they said, of previous reports received of a plot to assassinate legionnaires and persons prominent in the trial at Montesano last winter, where those found guilty of connection with the Armistice day shooting at Centralia were relentlessly prosecuted.
